She grew up in Melbourne and in 1922 married the artist Sir Daryl Lindsay, the youngest son of Lindsay's creative family, in London. In 1936, Joan published her first literary work under a pseudonym, a satirical novel called *Through the Dark Pondelayo*. Her second novel, *Time Without Clocks*, was published nearly thirty years later and was a semi-authoric account of her early married years. In 1967, Joan published her famous work, *Picnic on Hanging Rock*, a Gothic novel set in 1900 written as a true story. It details how three schoolgirls inexplicably disappear on Hanging Cliffs in the Macedon Ranges. The novel has aroused critical and public interest and is widely regarded as one of the most important Australian novels of all time. It was adapted in 1975 by the film with the same Peter Weir. Best Reviews The Latest Best Reviews In My Opinion, the most masterful touch in the very Joan Lindsay Lindsay The novel *Picnic on Hanging Rock* is the disappearance of the autonomous, seemingly logic-driven maths teacher Greta McCrow. Of course, the focus of this story is on three high school students from Appleyard College - the highly competent Miranda, the extremely wealthy Irma Leopold and the very smart Marion quaid, who, during a Valentine's Day picnic at Seyach Rock in the Australian state of Victoria in 1900, leave the main group for a walk on the famous geological formation. Suddenly, the younger girl Edith Horton comes stumbling back to the picnic spot, her dress ripped branches and brambles, laughing and crying and babbling that she left three others somewhere on the cliff. In the ensuing chaos of the rest of that day and the days that follow, much happens: an immediate search fails to turn out to be three girls. Michael Mike Fitzubert, a 20-year-old English heir who was captivated by a glimpse of Miranda on the fateful day, goes in search of the girls on his own and nearly dies in the effort. But he's able to get his friend-coach Albert to go there later and so find Irma unconscious. Mike can't remember what he saw on the rock. Irma can't remember what happened. Edith can't remember much of what she saw. Mike and Irma seem to be perfect for each other, but Mike can't forget Miranda. Much to the dismay of Mrs. Appleyard, the college hostess and owner, the school begins to disintegrate with students removed by parents and carers and with staff leaving, sometimes at the best of times, but sometimes dark events. The school itself is at the center of dark events, including murder and suicide. Fascinating questions Although the text of the 1967 novel gives no indication, reports over the past half-century have shown that the book included the final chapter in which Lindsay explained everything. Her publisher, cagly, convinced her to excise that ending, and it was a brilliant hit, resulting in the huge popularity that came the novel's way. This is because the reader knows that there must be some explanation for the disappearance of the girls and is pursuing novel speculation about what it may be and expects to find out - but not to find out. Thus, the novel and its mystery lingers in the mind of the reader and after the book is finished. The questions are fascinating: girls plan to escape? Miranda and Marion were successful? Are they living a new life somewhere? Were they more than friends? Were they lovers? Did someone at school help them escape? Miranda and Marion died in an accident in a hard-to-reach spot on the Rock and died of wounds or radiation? Did they meet the criminals? Were they kidnapped? Raped? Killed? Did they meet dangerous animals and thus die? Also - because of the hint of the beginning of the novel - is it a real story or fiction? Lindsey could have been one of the girls? Or do you know one of the girls? Also, is Irma being truthful She says she can't remember what happened? Is Edith being truthful when she says she can't remember much of what happened? Girls or not? That's why Greta McCrow's story was so brilliant. All of the above questions are interesting and disturbing when they arise in the context of three girls, each of whom was 17 or 18 years old. Three teenagers - who can say what they can do? But, with the inclusion of McCrow, the interesting-disturbing-scintillating rate jumps exponentially. Because of her disappearance, the reader must face the complicating mystery of whether McCrow - who is described even though someone in his 20s as elderly - was somehow with the girls or not. Not only that, but she was last seen by Edith walking through the undergrowth in her blooming - that is, without her long Victorian skirt. What does it give? And is it because Irma doesn't wear a corset? Complex questions So, disappearing is much more complicated, and so the questions are: Can a math teacher and a group of girls decide to run away on their own? Did they plan it together in advance? Did McCrow know (overheard or not) that the three planned to escape and decided to join them? She went after three for her nefarious reasons? They lured her into the wilderness for their nefarious reasons? The Secret These Matters that made *Picnic on Hanging Rock* a bestseller in the 1960s and have kept it in print ever since. It is a seductive book with untouched secrets. However, someone dug up Lindsay's final chapter - all seven pages long - and published it with comments like *The Secret Hanging Rock*. The reader in me would pretend he never resurfaced and let the mysteries of Lindsay's published book linger on. But the reporter/historian in me wants to know (a) what got left and (b) - OK, I admit it - the answers to these mysteries. Maybe if you're reading *Picnic on Hanging Rock*, you'll just leave it on that. I don't think I can. Patrick T. Reardon 6.23.19 *Picnic on Hanging Rock* I know you're there... Miranda? Miranda! On a summer's day in 1900, three Australian schoolgirls went to a remote hanging rock during a picnic, with their group. They were last seen heading to Beckon Rock... In a chilling adaptation of Joan Lindsay's classic novel, five performers try to unravel the mystery of the missing girls and their teacher. Euphoria and terror are reflected throughout the community, as the potential for a repeat of history becomes nightmarishly real.
